

PR Lighting Pilot Wash 575

The Pilot Wash 575 is a powerful, bright and fully featured workhorse in an attractively designed housing. Full Cyan, Yellow, Magenta (CYM) colour mixing is supplemented with a wheel of six rich dichroic fixed colours, smooth linear dimming and a beam angle that can be remotely varied between 15 and 35 degrees. The CYM colour mixing also features a clever auto system for easily programming those colour crossfades. Once again, the projector features transport locks for easy road use and a flight case.
